

## MEDICAL RACK MD 902

### Description

In critical air rescue missions, every second counts. The Medical Rack is designed to optimize space, improve accessibility, and securely store essential medical equipment for fast and efficient care during flights.

Tailored for Helicopter Emergency Medical Services (HEMS), this innovative solution provides a robust, adaptable, and certified system that ensures critical devices are always within reach, enabling your team to focus on what matters most—saving lives.

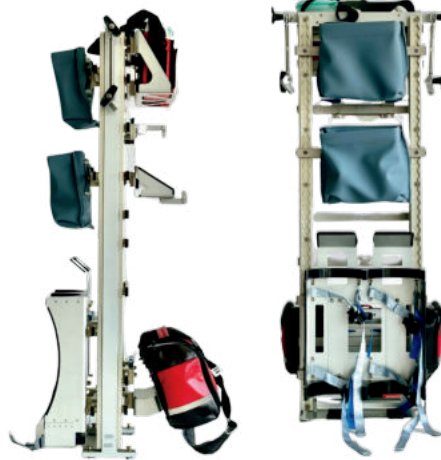

### Benefits

- **Quick Access:** Essential medical devices are within easy reach, allowing for rapid response during emergencies.
- **Efficient Space Utilization:** Optimizes cabin space by securely storing multiple medical units without clutter.
- **Secure Storage:** Prevents movement of critical equipment during flight, ensuring reliability and minimizing damage risk.
- **Customizable Setup:** Flexible configuration options adapt to specific mission needs, enhancing operational versatility.
- **Enhanced Patient Care:** Facilitates efficient treatment by keeping necessary devices accessible and organized.
- **Easy to clean & install/remove**

## Details

- Mounts for Defigard Touch 7, Medumat Standard 2, BSU212 OB1000, 2x5L O2 cylinders, 2x bags
- Dimensions in mm: 494x480x1270 (height adjustable)
- Weight: 20,4 kg (without equipment), 37,8 kg (with equipment and O2 cylinders)
- Material: Aluminum
- The Rack is available for MD902 and other types.

## Our products - your benefit

You require the installation of new mission equipment or need medical systems for your new mission profile - we have the right solution for your demands.

By cooperating with renowned partners from the aviation industry and companies in air rescue, we design and manufacture tailor-made products for your applications. Whether fiber composite, metal or avionics, we implement your requirements from the idea to the finished product for you in our EASA Part 21J Design Organization and Part 21G Production Organization.

We are specialized in the following areas:

- Mission Equipment
- Medical Systems
- Engineering
- Manufacturing
